

VETERINARY MEDICINE

Radiographs (pictures taken with x-rays) help our veterinary staff check the health of animals in our care.

This KING PENGUIN was limping. Radiographs were used to check bones and joints for abnormalities.

The BAMBOO SHARK radiographs were taken to find out why it stopped eating.

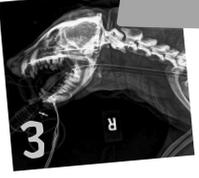

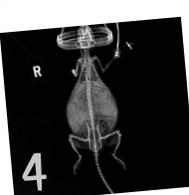

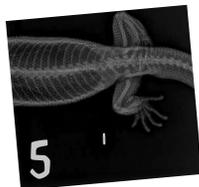

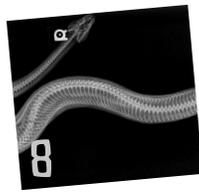

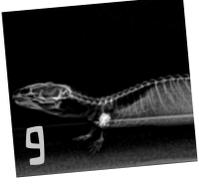

This LEOPARD TORTOISE had breathing problems. Radiographs helped check the health of its lungs.

- BABIRUSA
- HELLBENDER
- MADAGASCAR TREE BOA
- BEADED LIZARD
- BUSH DOG
- BARRED OWL
- LEOPARD GECKO
- RAT
